

Welcome to Saarbrücken and the htw saar

The htw saar currently offers more than 40 full-time degree programs, all accredited by national or international accreditation agencies, at four schools - the Business School, the School of Architecture and Civil Engineering, the School of Engineering and the School of Social Sciences. Currently, approximately 6,000 students are enrolled at the htw saar, including more than 700 international students from over 60 countries. The engineering faculty is the largest faculty at the htw saar.

International Project Semester (IPS) for Bachelor Students in Engineering Sciences

International Project Semester (IPS)

Do you want to work and study in the heart of Europe?

Join the IPS and start a semester at htw saar, work on a company project in the industrial sector, attend project management & engineering courses!

The IPS is a program for international and local bachelor students in engineering sciences, which is organized by the School of Engineering in cooperation with companies located in Germany.

During the IPS, you will:

- have a unique opportunity to take part in an actual engineering project in the industrial sector,
- work in multicultural, interdisciplinary teams,
- enhance your knowledge in project management,
- have a chance to get to know Saarbrücken, Germany and its neighbour cities and countries.

Entry requirements:

- You should have at least 120 ECTS in an engineering study program
- English proficiency required at least B2-level (No German skills required)

For further information on the language certificate, the application process or possibilities for financing your stay at htw saar (ERASMUS+ or Scholarship), please contact your university's International Office or visit our website.
